Invitation from Sam Srinivasulu, Ph.D.; President, GFTT

Dear Financial Executive,

It is my pleasure to invite you to a comprehensive three-day seminar on Asset Liability Management that will be held in Miami as per schedule listed on the front page of this brochure. I have presented this seminar as an in-house program to the U.S. Federal Reserve System, Office of the Superintendent of Financial Institutions (OSFI) in Canada, Central Banks and several financial institutions worldwide. Nearly 500 delegates from the supervision and regulation staff of the Federal Reserve Board benefited from the 25 presentations in this seminar. Over 50 institutions have also incorporated my presentations in their in-house training programs. In all, nearly 10,000 delegates from over 40 countries have attended the in-house and open enrollment public programs.

In addition to the material from the previous seminars, this seminar includes:

- Web-based interactive exercises, case studies and self-tests
- Access to Web-based Learning Products throughout the seminar and for three-months, post-seminar
- Discussions on new developments including the impact of Basel-II: New Capital Proposals
- Global Best Practices

Enclosed is a registration form. I invite you to register now and reserve your seat by mailing us the completed form.

Very truly yours,
Sam Srinivasulu

Theme

Volatile global markets, proliferation of new financial products and changing regulatory environments have made Asset Liability Management (ALM) a critical task for financial institutions today. It is therefore becoming increasingly important to define, measure, monitor and manage a financial institution’s exposure to Foreign Exchange, Interest Rate and Liquidity Risks on a coordinated and consistent basis.

Key Learning Outcomes

- **Benchmark** your institution by examining ALM success factors—profitability, growth and risk measures
- **Understand** key performance indicators for ALM and Risk Management
- **Gain** cutting edge insights into how leading institutions are preparing for the impact of the Basel-II: New Capital Proposals
- **Adopt** latest practical innovations in Funds Transfer Strategies
- **Examine** the latest techniques for Liquidity Risk Measurement and Management
- **Learn** how to integrate Market Risk and Credit Risk Management
- **Analyze** in detail the best practices of ALM, Liquidity Management, Contingency Funding Plan and Capital Adequacy Planning

Who Should Attend

- Central Bankers
- Chief Financial Officers
- Senior Management
- Treasurers and Risk Managers
- Asset/Liability and Funding Managers
- Investment Professionals
- Controllers/Auditors/Accountants
- Portfolio Managers
- Securities Analysts
- Insurance Executives
- Pension Fund Managers
- Pension Fund Trustees
- MIS and Operations Executives
- Budgeting and Planning Executives from Retail, Corporate, and Investment Banks, as well as Fund Management, Insurance, and Regulatory Organizations

Course Director

Sam L Srinivasulu, Ph.D., a specialist consultant and trainer in Asset Liability Management and Asset Securitization for leading financial institutions worldwide, is the key force behind KESDEE. For over 20 years, Sam L Srinivasulu has been presenting in-house and public training programs – across the U.S., Canada, Europe, the Middle-East, Latin America, Australia and Asia – to global financial executives.

Recently, Sam L. Srinivasulu successfully completed a five-year assignment with the U.S. Federal Reserve System to provide Executive Development Programs to Senior Regulators, Policy Makers and Examiners. The course was presented 25 times over to 500 delegates from the U.S. Federal Reserve System. For the last 15 years, he has conducted training programs (over 35 times) on Advanced Capital Markets (Mortgage-backed Securities, Derivatives and Risk Management) to the U.S. Department of Treasury/Office of Thrift Supervision. He has also completed a project to design, develop and present programs on ALM for Insurance and Asset Securitization to the Office of the Superintendent of Financial Institutions (OSFI) in Canada. The programs were presented several times in Toronto and Ottawa. In addition, he has also conducted public training programs on various topics in the U.S. and several other countries.
Seminar Format at a Glance

This seminar integrates instructor-led training with interactive e-learning. You will receive:

Instructor-led training
- Pre-course material - Access to our online preparation material four weeks prior to the course
- Course binder - A comprehensive set of case studies, exercises and reference material
- Exposure to actual case studies based on our vast consulting experience
- The latest regulations from regulatory institutions worldwide
- Practitioner’s perspective on ALM issues

Post Seminar 3-months FREE Access to e-learning
- Dynamic Simulations, Self-Tests and Job Aids
- Interactive exercises and Case Studies
- Several Policy Templates for Balance Sheet Management
- Database of ALM Disclosures/Regulations
- Financial Calculators for Simulation, Duration, Convexity and Value at Risk

Testimonials

Recent ALM Seminar Held in New York:
During the recent Asset/Liability Management Seminars held in New York, delegates made the following comments:

- "The pace and content of presentation was very good and provided the level of detail and strategic focus desired. The presenter is very knowledgeable on all aspects and provides "real-life" example to reinforce learning points. An extremely beneficial experience." - Vice President, ScotiaBank
- "The sessions on Duration Model and Funds Transfer Pricing were excellent!" - Deputy General Manager, Bank of China
- "The course and the database gave me a much better understanding of the ALCO Management." - Manager, Banco Cuscatlan
- "This was a very useful course/seminar for me; especially getting to know how developed countries look at Asset & Liability Management. I learnt quite a lot." - Senior Manager, National Discount House
- "Sam is an excellent instructor and is able to effectively communicate complex terms into simple more practical terms. His extensive knowledge & industry experience was insightful, as was his teaching style, use of e-learning, and case studies." - Vice-President, Orix USA Corp

From Previous Seminars on ALM:
- "Overall good in all aspects." - Dow Europe
- "The Case Studies were helpful in understanding different strategies and instruments used by banks." - Federal Reserve Bank of New York
- "Very helpful and very timely information regarding Asset/Liability Management and Interest Rate Risk Assessment. I really enjoyed

## Course Outline

### Day One

**Highlights**
- Evolution of ALM from a defensive tool for regulatory compliance and internal control to one of competitive advantage
- ALM’s pivotal role in enterprise-wide Risk Management
- Objective of ALM: Risk by ‘Choice’, not by ‘Chance’

**The Growing Importance of ALM**
- Financial Volatility and New Financial Products
- Regulatory Developments
- Funding and Capital Planning
- Liquidity Management
- Profitability and Growth

**Scope of ALM Function**
- Integration of Market Risk and Credit Risk
- Interest Rate Exposure Management
- Funding and Capital Planning
- FX Management
- Liquidity Management
- Profitability and Growth Management
- Trading Risk Management

**A 9-Part Framework for ALM**
- Strategic Framework
- Analytical Techniques
- Organizational Structure
- Operational Arrangements
- Technology Platforms
- Information Reporting Channels
- Performance Measurement
- Regulatory Compliance
- Control Requirements

**Techniques for Interest Rate Analysis**
- Gap, Simulation, Duration, Value at Risk, and Match Funding
- Comparison of Techniques

**Gap Analysis**
- Mechanics, Assumptions, and Limitations
- How to Represent Derivative Products in a Gap Report
- Illustrations of Actual Gap Reports
- The Relationship Between Gap and Income Statement

**Simulation**
- Interface with Budgeting/Strategic Planning
- Product Mix/Price Policy Effect
- Black Box and Customized Software
- How to Avoid Analysis Paralysis
- Monte Carlo Simulation
- Option-adjusted Spread Analysis

---

### Day Two

**Highlights**
- State-of-the-art techniques for Risk Modeling, Measuring, and Hedging
- Analysis of several Liquidity & Contingency Funding Plans

**Strategies for ALM**
- Business Strategies: Mix/Pricing of Assets, Liabilities
- On-Balance Sheet Investment and Funding Strategies
- Off-Balance Sheet Hedging Strategies
- Five strategies for Interest Rate Risk in Portfolio Management: Dedication, Immunization, Indexation, Active Management and Rate Anticipation

**Duration and Convexity**
- Duration of Single Items, Portfolios, and Balance Sheet
- Techniques to manage Duration of Equity

**Value at Risk**
- Measures of Volatility
- How to Apply Value at Risk for Banking Book

**Management of Foreign Exchange and Other Risks**
- ALM in a Multicurrency Balance Sheet

**Liquidity Management**
- Funding Liquidity
- Trading Liquidity
- Contingency Funding Plan

---

### Day Three

**Highlights**
- ALM as a catalyst in strategy formulation of insurance companies (Example: Asset Allocation, Portfolio Optimization, Product Development/Pricing)
- ALM’s potential for value creation in conjunction with Risk Adjusted Performance Measurement, RAROC, and Capital Allocation
- Innovations in ALM Organization
- Survey Results Organized Into Nine Topics
- A Plan of Action: How to Implement Best Practices

**Funds Transfer Pricing and Performance Measurement**
- Why Transfer Price?
- Global view of Transfer Pricing
- General examples
- Complex problems
- Transfer Pricing for Interest Rate Risk, Options Risk, Basis Risk, and Liquidity Risk
- Loan and Deposit Pricing Implications
- Segregation of Interest Rate Risk Accountability
- Implementation Issues
- Current Issues

**Capital Adequacy Planning**
- Credit Risk Capital
- Market Risk Capital
- Risk-adjusted Return on Capital (RAROC)
- Potential Impact of Basel-II

**Organizational Considerations**
- Asset, Liability Committees
- Role, Composition, and Tasks
- Policies and Procedures
- Centralization Vs. Decentralization
- Examples of ALCO Reports
- Guidelines to more effective ALCO Meetings

**Software Selection**
- Technical, Functional, and Cost Considerations

**Auditing the ALM function**
- Critical Functions/Assumption

**Global Best Practices ALM**
- Framework for Analysis of Best Practices
- Global Database, Surveys and Case Studies
Post-seminar, all delegates receive FREE 3-months access to our e-learning product on Asset Liability Management. The product supplements classroom training and fosters interactive learning through exercises, simulations and analysis of case studies. If you wish to learn more about any of our e-learning products, visit us at www.kesdee.com

**Product Features**

**User Guide**
Consists of a detailed set of instructions that highlight the special features of the product. It also aids in product navigation.

**Tracking Report**
Facilitates the individual/training manager to monitor personal/group progress. This tool highlights the courses completed and lists the scores on self-tests.

**Glossary**
An exhaustive list of complex terms and techniques used in the courses have been highlighted with their definition and meanings. The glossary also cites references related to the subjects.

**Bulletin Board**
A virtual bulletin board that enables collaborative interaction between users for discussion and information exchange.

**E-mail Content Expert**
Queries/requests/comments relating to the content within a product can be E-mailed to KESDEE for feedback.

**E-mail Training Manager**
Facilitates users to send doubts/suggestions to their training managers.

**FAQs**
A consulting tool that lists a set of questions most frequently asked by users.

**Asset Liability Management**
Library of 22 Courses

1. Scope of ALM
2. Objectives of ALM
3. Growing Relevance of ALM
4. Nine-part Framework of ALM
5. Strategies for ALM
6. Yield Curve Analysis
7. Interest Rate Gap Analysis I
8. Interest Rate Gap Analysis II
9. Simulation I
10. Simulation II
11. Duration I
12. Duration II
13. Duration III
14. Basis Point Value
15. Convexity
16. Review of Statistical Concepts
17. Value at Risk I
18. Value at Risk II
19. Application of Analytical Techniques
20. AL Organizations/Operations/Policies/Procedures and Reports
21. Funds Transfer Pricing I
22. Audit of ALM Model
